DESCRIPTION	RATE	HOURS	AMOUNT
Modeling Utilities <ul style="list-style-type: none">- Training Dataset Generation Code- Model Training Code- Training Visualization and optimizations- Model Evaluation Code		7	\$315
LSTM Modelling <ul style="list-style-type: none">- LSTM Model implementation- Model Training and Tuning- Model Inference		11	\$495
Multi-Step Modelling (predicting N steps in future) <ul style="list-style-type: none">- Model design and architecture- Model Training and Tuning- Model evaluation		9	\$405
Initial Back Testing Pipeline <ul style="list-style-type: none">- Utilizing model to make predictions on test data- Logic to visualize the results.		3	\$135
Experimentation <ul style="list-style-type: none">- Experiment design- Conduct Experiments- Analysis on results		10	\$450
Miscellaneous <ul style="list-style-type: none">- Meetings- Documentation- Code debugging and refactoring- R&D on financial forecasting		4	\$180
	45	44	1980
TOTAL			AUD 1980.00
